After I get the software provision from Polycom's public server, this is what I see

Under NETWORK CONFIG, it doesn't appear to have found a "Provision Server".

a Network	Configuration
Provisioning Server:	
Ethernet Menu:	***
SNTP Address:	

Under LINE CONFIG → Line, I don't see Line 1

 12 12 15 14 14 14 14 14 14	40 44 54 54 54 54 54 16 H	B N	he he to be an		
	11 11 11 11 11 11 11 11 11 11 11 11 11	Herr.			

Under SIP CONFIG

2	SIP	Server		Annual Control of the
Server 1:				
Server 2:			101
